

## Dissection Connection

*Everything but the Squeal*

### MEET MISS VIVI SECTION — SHE'S YOUR DISSECTION CONNECTION

It's become increasingly apparent that schools and universities are having trouble sourcing good quality organ specimens for dissection classes.

Dissection Connection sources and supplies dissection specimens for schools and educational institutions. The organs are vacuum packed, frozen and delivered to your door. All you have to do is defrost them when you're ready to use them.

Miss Vivi's aim is that Dissection Connection will be your one stop shop for specimens that are guaranteed to be suitable for dissection. No more hearts with the top cut off. No more cancelling eye dissections because you can't get the stock.

Miss Vivi knows you want your pound of flesh! She knows there is no substitute for the real thing. And she knows how to get it for you.

## Price List

Take the hassle out of planning dissection classes—order at the beginning of the term and specify your delivery date.

Nothing to pay until after delivery!
